- Practical use of Windows and Linux (Ubuntu) operating systems.

## Achievements

- Succeeded in completing the Ten Tor's challenge over all 3 distances, walking 35, 45 and 55 miles in 2 days as part of a team of six.
- Completed the 3 peaks challenge – climbing the 3 highest mountains in Scotland, England and Wales in 24 hours in a team of 4.
- Finished 13<sup>th</sup> in the second Ottery St. Mary 10km race.
- Successfully organised and ran a Top Link sports festival event for primary school children in surrounding area. Worked as part of a team of 4, organising other students to run the event.

## Interests and Activities

I have a keen interest in web design & development, having created and maintained several projects. Examples of my work can be found on my portfolio website ([www.johe.co.uk](http://www.johe.co.uk)).

My main interest outside of computing is football. I am currently part of the University of Kent Men's team, competing in both the University and local leagues. When I'm at home, I also play in a local 11-a-side team.

Other than football, I also try to go surfing as frequently as possible, with the North Devon coast a short drive from my home. Alongside this I also enjoy mountain walking, regularly travelling to Dartmoor for walks and camping.
